

BECOME PART OF OUR SUCCESS STORY WITH YOUR CAREER!

SmartRay is specialized in 3D Sensors for inspection, guidance and measurement; that help manufacturing companies improve product quality, guide automation and reduce production costs. By focusing on 3D, SmartRay has built a comprehensive portfolio of products designed to solve a rapidly increasing range of industrial applications.

An ideal candidate should be able to over time take responsibility of all quality and test processes of all SmartRay R&D teams and be responsible for the UX and final product tests at the system level.

JOIN US AS:

SOFTWARE/SYSTEM TESTER (F/M/D)
